# INDEX

## TOMUS XXVI

<i>Awasthi, C. P. and Upadhyay, M. D., S-connection and Gauss—Codazzi equations</i> .....	75
<i>Balázs, Katalin, Approximation by Bernstein type rational functions</i> .....	123
<i>Беляев, В. В. и Себекин, Н. Ф., О бесконечных группах типа Миллера—Морено</i> .....	369
<i>Berkes, I., An almost sure invariance principle for lacunary trigonometric series</i> .....	209
<i>Bleyer, A., Extension of linear operator transformations</i> .....	
<i>Botto, M. A. and Vértesi, P. O. H., On the convergence of the Bernstein—Grünwald averaging process for averaging interpolators</i> .....	143
<i>Carlitz, L., Some polynomials associated with Dedekind sums</i> .....	311
<i>Carlson, J. F., Calculating some relative homology over group rings</i> .....	1
<i>Crombez, G., On partially ordered <math>f</math>-groupoids</i> .....	223
<i>Csákány, B., Varieties of modules and affine modules</i> .....	263
<i>Dinh Van Huynh, Über Ringe mit Minimalbedingung für Hauptideale</i> .....	245
<i>Feigelstock, S., A correction of "The nilstufe of the direct sum of rank 1 torsion free groups"</i> ..	221
<i>Finkelstein, H. S., Some numerical results on groups</i> .....	91
<i>Fried, E., Prime factorization, algebraic extension and construction of weakly associative lattices</i> ..	241
<i>Györy, K. et Pethő, A., Sur la distribution des solutions des équations du type norme-forme</i> ..	135
<i>Henle, J. M. and Kleinberg, E. M., A combinatorial proof of a combinatorial theorem</i> .....	3
<i>Heyman, G. A. P. and van Leeuwen, L. C. A., A radical determined by a class of almost nilpotent rings</i> .....	259
<i>Huppert, B., Zur Konstruktion der reellen Spiegelungsgruppe <math>\mathfrak{S}_4</math></i> .....	331
<i>Ito, N., On Wielandt number of transitive permutation groups of prime degree</i> .....	267
<i>Joó, I., An interpolation-theoretical characterization of the classical orthogonal polynomials</i> ..	163
<i>Kaiser, H. K. and Lidl, R., Erweiterungs- und Rédeipolynomvollständigkeit universaler Algebren</i> ..	251
<i>Kuu, O., Исследование одного интерполяционного процесса. II</i> .....	171
<i>Kis, O. and Névai, G. P., On an interpolational process with applications to Fourier series</i> ..	385
<i>Kleinberg, E. M. and Henle, J. M., A combinatorial proof of a combinatorial theorem</i> .....	3
<i>Komlós, J., Sulyok, M. and Szemerédi, E., Linear problems in combinatorial number theory</i> ..	113
<i>Laczkovich, M., Separation properties of some subclasses of Baire 1 functions</i> .....	405
<i>Lawver, D. A., Cocyclic planar near-rings</i> .....	87
<i>Lidl, R. and Kaiser, H. K., Erweiterungs- und Rédeipolynomvollständigkeit universaler Algebren</i> ..	251
<i>Loonstra, F., Note on extensions of modules</i> .....	349
<i>Lovász, L., 2-matchings and 2-covers of hypergraphs</i> .....	433
<i>Márki, L., Über einige Vollständigkeitsbegriffe in Halbgruppen und Gruppen</i> .....	343
<i>Маслов, В. В., О некоторых специальных типах категорий</i> .....	53
<i>McLeish, D. L., An invariance principle for strongly multiplicative sequences</i> .....	81
<i>Медведи, Л., Полугруппы, у которых все подмножества независимы</i> .....	281
<i>Moór, A., Über die Veränderung der Krümmung bei einer Torsion der Übertragung</i> .....	97
<i>Neumann, B. H., Questions and examples on group coverings</i> .....	291
<i>Névai, G. P. and Kis, O., On an interpolational process with applications to Fourier series</i> ..	385
<i>Nöbauer, W., Über die Automorphismen von Kompositionsalgebren</i> .....	275
<i>Oláh, Gy., Enumeration of spanning trees containing given subtrees</i> .....	205
<i>Pethő, A. et Györy, K., Sur la distribution des solutions des équations du type norme-forme</i> ..	135

<i>Preston, G. B.</i> , Rédei's characterization of congruences on finitely generated free commutative semigroups .....	337
<i>Schein, B. M.</i> , Free inverse semigroups are not finitely presentable .....	41
<i>Schein, B. M.</i> , Commutative semigroups all of whose subsemigroups are densely embedded ..	327
<i>Shiokawa, I.</i> and <i>Uchiyama, S.</i> , On some properties of the dyadic Champernowne numbers ..	9
<i>Steinfeld, O.</i> , Some characterizations of semisimple rings with minimum condition on principal left ideals .....	377
<i>Stern, M.</i> , Strongly planar AC-lattices in which the ideal of the finite elements is standard ..	229
<i>Sulyok, M.</i> , <i>Komlós, J.</i> and <i>Szemerédi, E.</i> , Linear problems in combinatorial number theory ..	113
<i>Szabó, L.</i> , Endomorphism monoids and clones .....	279
<i>Szekeres, G.</i> , Homogeneous ideals in $K[x, y, z]$ .....	355
<i>Szemerédi, E.</i> , <i>Komlós, J.</i> and <i>Sulyok, M.</i> , Linear problems in combinatorial number theory ....	113
<i>Сесекин, Н. Ф.</i> и <i>Беллев, В. В.</i> , О бесконечных группах типа Миллера—Морено .....	369
<i>Szép, J.</i> , On a finite algebra with two operations .....	347
<i>Tandori, K.</i> , Gewisse Fragen über die Lebesgueschen Funktionen .....	321
<i>Uchiyama, S.</i> and <i>Shiokawa, I.</i> , On some properties of the dyadic Champernowne numbers ..	9
<i>Upadhyay, M. D.</i> and <i>Awasthi, C. P.</i> , $S$ -connection and Gauss—Codazzi equations .....	75
<i>van Leeuwen, L. C. A.</i> and <i>Heyman, G. A. P.</i> , A radical determined by a class of almost nilpotent rings .....	259
<i>Veidinger, L.</i> , On the order of convergence of a finite element method in regions with curved boundaries .....	419
<i>Vértesi, P. O. H.</i> and <i>Botto, M. A.</i> , On the convergence of the Bernstein—Grünwald averaging process for averaging interpolators .....	143
<i>Vértesi, P. O. H.</i> , A problem of P. Turán (On the mean convergence of lacunary interpolation) ..	153
<i>Vértesi, P. O. H.</i> , Notes on a paper of G. Grünwald .....	191
<i>Vértesi, P. O. H.</i> , Hermite—Fejér interpolation omitting some derivatives .....	199
<i>Weinert, H. J.</i> , Ringe mit nichtkommutativer Addition. II .....	295
<i>Wiegandt, R.</i> , A condition in general radical theory and its meaning for rings, topological spaces and graphs .....	233
<i>Windauer, H.</i> , Symmetrische Birkhoff-Interpolation .....	29
